

	W 100 CFi	W 120 CFi	W 130 CFi
Weight of basic machine			
Empty weight of machine excluding tank contents	17,900 kg	18,800 kg	19,200 kg
Operating weight, CE*	19,000 kg	20,000 kg	20,400 kg
Maximum operating weight (full tanks, full range of equipment)	22,800 kg	24,050 kg	24,650 kg
Weights of tank contents			
Filling of water tank	1,400 kg	1,600 kg	1,600 kg
Filling of fuel tank (0.83 kg/l)		506 kg	
Filling of AdBlue®/DEF tank (1.1 kg/l)		38.5 kg	
Additional add-on weights			
Operator and tools			
Operator		75 kg	
5 pick containers		125 kg	
On-board tools		30 kg	
Optional milling drum units in lieu of standard			
Milling drum housing FB1000 FCS	280 kg	-	-
Milling drum housing FB1200 FCS	-	330 kg	-
Milling drum housing FB1300 FCS	-	-	370 kg
FCS tandem scraper FB1000	180 kg	-	-
FCS tandem scraper FB1200	-	210 kg	-
FCS tandem scraper FB1300	-	-	225 kg
Optional milling drums in lieu of standard			
FCS milling drum FB1000 HT22 LA15 with 99 picks	-80 kg	-	-
FCS milling drum FB1200 HT22 LA15 with 115 picks	-	-80 kg	-
FCS milling drum FB1300 HT22 LA15 with 121 picks	-	-	-80 kg
FCS milling drum FB1000 HT22 LA8 with 149 picks	155 kg	-	-
FCS milling drum FB1200 HT22 LA8 with 174 picks	-	200 kg	-
FCS milling drum FB1300 HT22 LA8 with 185 picks	-	-	225 kg
FCS milling drum FB1000 HT5 LA6X2 with 340 picks	100 kg	-	-
FCS milling drum FB1200 HT5 LA6X2 with 410 picks	-	150 kg	-
FCS milling drum FB1300 HT5 LA6X2 with 444 picks	-	-	170 kg
Optional additional equipment			
Track units in lieu of wheels		1,400 kg	
Hydraulically lowering canopy in lieu of standard		200 kg	
Short discharge conveyor in hydraulic folding design, 7,250 mm long with 600 mm wide belt, in lieu of standard		-45 kg	
VCS extraction system		125 kg	
Supplementary weight for flexible use	400 kg	515 kg	515 kg

* = Weight of machine, half-full water tank, half-full fuel tank, operator, on-board tools, excluding optional equipment features
